## The Secretary General

*Seong Jun LIM*

Honourable delegates, MUN directors, guests, admins, press, and guests,

My name is SeongJun LIM and it is an honour with great pleasure to serve you as Secretary General for Saigon Model United Nations 2017.

The theme for this year's SAIMUN will be "Reaching Global Consensus". Since 2015, the themes for SAIMUN have always been related to "Goals" from the United Nations. Therefore, our student officer team and I firmly believe that this year's theme will engage students to reflect upon a wide range of topics including ecological, economical, international, and social issues existing on a global scale.

These past four years in Model United Nations (MUN) gave me excitement with interest on global issues. To me, MUN not only gave me opportunity to develop my debating skills and teach lessons about economics, politics, military, sociology, religion, culture, and many more; but also, was a chance to interact with different people from different backgrounds representing different nations. I indeed hope that your experience with SAIMUN 2017 will do the same for you. Since this Saigon Model United Nations 2017 will be my 17th conference in total and my final one in Saigon, may it be the best yet to come.

Yours faithfully,

SeongJun LIM

Secretary General of Saigon Model United Nations Conference 2017

## The Deputy Secretary General

### *In Hae HONG*

Honourable delegates, esteemed student officers, and most distinguished guests and advisors,

My name is Inhae Hong and I am currently enrolling in my last year at the British International School, and it is my great pleasure to serve as the Deputy Secretary General of SAIMUN 2017. This is my 12th and last conference and I am most honoured to perform this role. The topic of “Reaching Global Consensus” might just be the motto that the United Nations stand by. Reaching global consensus is hard, and might seem impossible. However, once this goal is reached, I believe that the world will be absent of injustice, corruption, and misconduct. You as model UN’ers might be the prime example of what it takes to reach this goal, and I hope to see this in action in SAIMUN 2017.

MUN was, and still is one of my fondest memories of high school and I believe many of you will agree with me. MUN is a place where new friendships are made, allies are formed and relationships bloom. As representatives of each country, it may not seem apparent at first, but a step back from your roles will show you that MUN is a place full of new and wonderful friendships. Of the many things you will take from this conference, one of the most important might just be that.

Throughout the years, MUN may have been an opportunity to learn skills, improve public speaking and adapt different roles. Now that you have gained all these cards through practice, SAIMUN 2017 will be the chance to play these cards. Play them right and you will gain even newer and wonderful experiences.

The last message to give you is to have fun. MUN is not dull, nor it is mundane. MUN is a special time of your school life but the only thing that actually makes it special is you, whether you are a delegate, student officer, admin or press team. See you then.

Sincerely,

Inhae Hong

The British International School Vietnam, Ho Chi Minh City

Deputy Secretary General of the Saigon Model United Nations Conference 2017

## **President of General Assemblies**

*Geun Ryeol PARK*

Honourable delegates, esteemed student officers, and most distinguished guests and advisors,

My name is GeunRyeol Park and it is a great honour to serve you as President of General Assembly for Saigon Model United Nations 2017. This SAIMUN will be my 12th and the last conference that I will partake.

Theme for SAIMUN 2017 is “Reaching Global Consensus”. For all MUN conferences, reaching a consensus between nations has always been an ultimate and primitive goal. This theme will remind us again why we are doing MUN and should take it seriously as all the topics that will be discussed are the conflicts in the real life. Our generation has become the most intellectual as better education is provided with developed technology that led to alleviate some conflicts. Through the theme, I hope our generation could be more aware of the given topics and later support to solve these issues.
